

Closing your unit for the summer

- Shut off main water valve to your unit.
- Use Bactivate solution in all drains. 8 ounces per drain and then 8 ounces of hot water. Do not use the sink after treatment.
- Shut off and unplug hot water heater.
- If your refrigerator is empty, unplug and leave the door open.
- Leave the A/C set at 82 and the humidistat at 65.
- Unplug all appliances, particularly TV, microwave and computer.
- Cover all toilets with plastic wrap.
- Remove all furniture from patio.
- Close hurricane shutters or arrange for someone to close before a hurricane strikes our area.
- Lock all doors and windows.
- Notify the office & guard gate of your leaving.
